

## Man sues wife over ugly kids and wins

Remember the saying “a face only a mother can love.”

Well in China that saying has taken on an entirely new meaning.

Jian Feng a Chinese man sued his wife over what he called “an extremely ugly baby girl,” the newspaper Irish Times reported.

Though Feng insisted that his wife had to have an affair because there is no way he could have fathered such an ugly child, DNA tests proved that the girl and all of his kids were in fact his.

*Here’s where it gets good.* Feng sued his ex-wife on the grounds of false pretenses, she had undergone over \$100,000 in plastic surgery while in South Korea before they met and never told Feng about the procedures “duping him into thinking she was beautiful.”

Sit down for this part, he won! A judge agreed with Feng’s argument and ordered his ex-wife to pay Feng \$120,000! *“I married my wife out of love, but as soon as we had our first daughter, we began having marital issues,”* Feng told the Irish Times. *“Our daughter was incredibly ugly, to the point where it horrified me.”*

I have enough of a hard time getting beaten up by angry mommies. From here, DAD will let you comment on Feng, the lawsuit and his ugly babies and what work has to be done to spend \$100,000?

### **UPDATE-**

Thanks to all of you who sent DAD the before and after pictures of Mrs. Feng. This is what \$100,000 of plastic surgery looks like, before and after.
